

The 100% Certified Egyptian Cotton Catalog

Provided by CLIO ENTERPRISES the authorized distributor for ECH -Egyptian Cotton Hub

ABOUT US

Egypt's public sector factories has began in the 1920s, growing to thirty-three facilities renowned for over a century of textile expertise. Now consolidated into nine companies across the country, they are undergoing significant investment—\$650 million for new constructions and renovations at 62 sites, alongside an additional \$550 million for state-of-the-art machinery.

New production lines feature advanced equipment, including Reiter C70 carding machines, E85 combers, and K-47 ring spinning frames. Spinning frames are integrated with SAVIO Polar Automatic winding systems.

Weaving technology combines Itema, Picanol, and Toyota's strengths. The Itema R9500 rapier machine offers exceptional versatility, while Picanol OMNIplus Summum looms enable high-speed weaving with lower energy consumption. Toyota air jet looms utilize advanced motors and nozzle technology for efficient operation.

Dyeing and finishing processes utilize technology from Bruckner, Benninger, Thies, and Monforts, including digital printing from Reggiani. New ERP systems and SAP integration are also in the implementation phase.

CLIO ENTERPRISES is the authorized agent for ECH in US and glad to receive your inquiries.
